Nile Chemicals

NILE CHEMICALS

	EXPLOSIVES: Certain Substances reacts exothermically, generating gases, which may explode on heating, hence storage may be required in water or suitable solvent
	OXIDISING:Some Substance reacts with oxygen and may cause fire hazard
	TOXIC:Certain substance on contact with human body may cause acute or chronic damage
	HARMFUL:Certain substance on contact with human body may cause acute or chronic damage
	FLAMABLE:Chemicals , Solvents with a flash point below zero degree and boiling point of 35 deg c are termed as flammable items
	CORROSIVE:Substance which causes severe damage to living tissues
	IRRITANT:Substance which causes irritation on contact with skin etc
	DANGEROUS: substance which causes damages to ecosystem
	RADIOACTIVE:Substance which evolves radiation in the ecosystem

Nile Chemicals

PRODUCT PROFILE

PURE, EXTRA PURE, PURIFIED

We have pure , extra pure and purified products , available as per buyers requirements and specifications.

GUARANTEED REAGENTS (GR)

Our Guaranteed Reagents are used for analytical and research work, where high purity is essential. This is similar to grade marketed by other International company.

HPLC GRADE

This are high performance chemicals , used in liquid chromatography used frequently in biochemistry and analytical chemistry to separate, identify, and quantify compounds

SPECTROSCOPY GRADE

These are solvents of high optical purity for UV/Visible/IR/Fluorescence/NMR and Mass spectroscopy.

BIOLOGICAL STAIN

Our Ph Indicators are ready to use solutions for Microbiology, Histology, Hematology and Cytology and are at par with certified grade stains as per International norms.
